CAUTION
VERSIGTIG

WAARSKUWINGS:
Laat 14 dae toe tussen die laaste toediening en oes van appelkose, perskes en pruime, 21 dae vir wyndruiwe en 4-6 weke vir tafeldruiwe. Giftig indien ingesluk. Kan matige oog- en velirritasie veroorsaak. Giftig vir vis. Hou buite bereik van kinders, oningeligte persone en diere. Berg weg van voedsel en voer.

Alhoewel hierdie middel omvattend onder 'n groot verskeidenheid toestande getoets is, waarborg die registrasiehouer nie dat dit onder alle toestande doeltreffend sal wees nie aangesien die werking en effek daarvan beïnvloed kan word deur faktore soos abnormale klimaats – en bergingstoestande, kwaliteit van verdunningswater, verenigbaarheid met ander stowwe wat nie op die etiket aangedui is nie en die voorkoms van weerstand van die patogeeen teen die betrokke middel sowel as die metode, tyd en akkuraatheid van toediening. Verder aanvaar die registrasiehouer nie verantwoordelikheid vir skade aan gewasse, plantegroei, die omgewing of vir nadelige effek op mens of dier of vir 'n gebrek aan prestasie as gevolg van die versuim van die gebruiker om etiketaanwysings na te kom of as gevolg van die ontstaan van toestande wat nie kragtens die registasie voorsien kon word nie. Raadpleeg die verskaffer in die geval van enige onsekerheid.

VOORSORGMAATREëLS:
Vermy inaseming van poeier of spuitnewel.
Dra rubberhandskoene en 'n gesigskerm wanneer spuitmengsel voorberei word.
Was na gebruik.
Vermy die oorwaai van spuitnewel na ander gewasse, riviere en damme.
Vermy besoedeling van voedsel, voer, eetgerei en drinkwater.
Houers en verpakkings moet heeltemal leeggemaak word voordat hulle vernietig word.
Skud die houer deeglik uit in die mengbak of spuittenk voordat leë houer vernietig word en moenie vir enige ander doel gebruik nie.
Maak spuitapparaat skoon na gebruik en raak ontslae van waswater waar dit nie gewasse, weiding, riviere en damme sal besoedel nie.

GEBRUIKSAANWYSING: Gebruik alleenlik soos aangedui.
Meng die aanbevole hoeveelheid met water en roer deeglik. Bespuit die plante deeglik aan weerskante van die blare. CUPROFIX DISPERSS is 'n beskermende spuitmiddel en moet verkieslik toegedien word voordat die siekte verskyn.

Gewas / Siekte	Dosis / 100 ℓ water	Opmerkings
Appelkose, Perskes Pruime: Gomvleksiekte Bakteriesekanker	0,8 –1,0 kg	1ste bespuiting: nadat die vrugte geoes is. 2de bespuiting: 3 – 4 weke later 3de bespuiting: net voor knopswel
Druiwe: Donsskimmel Bakteriese skroeisiekte, Antraknose en Streepvleksiekte	1 kg	1ste bespuiting: wanneer lote 2,5 – 5 cm lank is. Herhaal met nog 2 – 3 bespuitings met tussenposes van 14 dae

WARNINGS:
Allow 14 days between last application and harvest of apricots, peaches and plums, 21 days for wine grapes and 4-6 weeks for table grapes. Poisonous if swallowed. May cause mild eye and skin irritation. Toxic to fish. Keep out of reach of children, uniformed persons and animals. Store away from food and feed.

Although this remedy has been extensively tested under a large variety of conditions the registration holder does not warrant that it will be efficacious under all conditions because the action and effect thereof may be affected by factors such as abnormal climate and storage conditions; quality of dilution water, compatibility with other substances not indicated on the label and the occurrence of resistance of the pathogen against the remedy concerned as well as by the method, time and accuracy of application. The registration holder furthermore does not accept responsibility for damage to crops, vegetation, the environment or harm to man or animal or for lack of performance of the remedy concerned due to failure of the user to follow the label instructions or to the occurrence of conditions, which could not have been foreseen in terms of the registration. Consult the supplier in the event of any uncertainty.

PRECAUTIONS:
Avoid inhalation of dust or spray mist.
Wear rubber gloves and face shield when preparing spray mixtures.
Wash after use.
Avoid drift onto other crops, grazing, rivers and dams.
Avoid contamination of food, feed, eating utensils and drinking water.
Containers and packages must be completely emptied before being disposed of.
Shake out thoroughly into the mixing or spray tank before destroying the empty container and do not use for any other purpose.
Clean application equipment after use and dispose of wash water where it will not contaminate crops, grazing, rivers and dams.

DIRECTIONS FOR USE: use only as directed:
Mix the recommended quantity with water and stir well. Spray the plants thoroughly on both sides of the leaves. CUPROFIX DISPERSS is a protective spray and should preferably be applied before disease appears.

Crop / Disease	Dosage / 100 ℓ water	Remarks
Apricots, Peaches Plums: Gum spot and Bacterial canker	0,8 – 1,0 kg	1st spray: after fruit has been harvested. 2nd spray: 3 – 4 weeks later 3rd spray: just before bud movement.
Grapes: Downy mildew Bacterial blight, Anthracnose and Dead arm	1 kg	1st spray: when shoots are 2,5 – 5 cm long. Repeat with 2 – 3 further sprays at 14 days intervals.
